

Now students can get a real-world view of *today's* business world—and a head start on becoming part of it.

AICPA ACCOUNTING PROGRAM FOR BUILDING THE PROFESSION:

• Advanced High School Accounting •

This course integrates managerial and financial accounting to show how accounting facilitates business and how financial records tell a complex and accurate story about what's going on in a company. It's designed to give students a deeper understanding of accounting principles—as well as the profession—while further developing their critical thinking skills.

WHAT'S IN IT FOR STUDENTS?

- ✓ A better understanding of the diverse and evolving field of accounting
- ✓ A jumpstart on college courses and/or a future in the accounting profession
- ✓ A stronger basis for business-minded students and future entrepreneurs
- ✓ Honors credit—with the potential for college credit
- ✓ The ability to apply for an AICPA scholarship upon course completion

WHAT'S IN IT FOR EDUCATORS?

- ✓ Greater confidence in preparing students for college
- ✓ A deeper, more engaging and relevant accounting course offering
- ✓ An expanded and more diverse business curriculum
- ✓ Free training to teach the course provided by the AICPA
- ✓ Supplemental materials and support from the AICPA and Start Here, Go Places.
